Dear Sir

Your note telling me of the safe arrival of the three Oil paintings at the Corcoran Gallery of Art", was handed me upon my return from Lexington some weeks ago—

The injury to one of the eyes of the "Old woman" is of long standing. The injury to the other painting is I presume due to the fact that it was transferred to a new canvas in 1849.

Thanking you for your note I am

Very Respectfully
Wm. James B. Clay.

Wishes to sell a
Marble statue

W. W. Corcoran Esqr.

Dear Sir:

Would respectfully submit the accompaning photographs, to your Kind inspection. It is a work of my own, that I am desirous to make sale of, the price thereof will be moderate and I would even make it a condition to exchange it for any other work I may do hereafter, that you may prefer and rather have.

It being a nude Statue and therefor only suitable for a large gallery or Conservatory is the probable cause I have not been able to sell it here

yet I can not afford to keep it on hand and would consequently dispose of it at sacrafice, so I may turn the proceeds of it into other works.

Would therefor respectfully ask you to give my request due consideration and to grant me the favor of a reply.

In hope you pardon the boldness of addressing these lines

I remain yours -

very respectfully

Dear Sir, Thank you very much for letting me know about the photograph which I would like to have taken at your convenience.

I do not know your arrangements with your photographer, but suppose of course that the use of the negative can be controlled, as until the picture is disposed of I wish to direct the distribution of the prints.

If this cannot be done I will dispense with the photo at present. Otherwise I shall be happy to receive a dozen copies

Dear Sir—

Many Kind Thanks for your letter and the excellent article about the Statues you enclosed. "Angelo" is finished, & "Diver" being pushed forwarded with all my might, and the boxes are being made for encasing them both for shipment. I am glad that the Statues have not made an unfavour

able impression. and I am sure that the two I am now going to send will be more satisfactory in all respects — Calculated in proportions for the height of their position, they could not be advantageously viewed on photographed in my studio - I am glad to hear that Mr Corcoran has seen the works - and I hope that you will write to me soon again and that the Board when it meets will take action on the pending question.

I have nothing new of moment to communicate, but will send you some newspaper articles about my more important works very soon.

Again my hearty thanks for all your kindness and believe me most truly yours

M. Ezekiel

Dear Sir:

The Massachusetts Press Association intend to visit Washington about the first of May staying three days in your city. It may chance to fall out that Sunday will be one of the days. Then one day will be taken up by the Mount Vernon trip leaving not much available time in a city where the day practically closes about 4 in the afternoon. I wish to have the party visit the Corcoran Art Gallery where I have passed some pleasant hours, and not be obliged to make a too hurried stop there. My object in writing is to learn the hours when they can be ad-

mitted; also to know if the Gallery is
ever open Evenings. If the Gallery
can be visited in the Evening
it will give the newspaper men
and their ladies ample time at a
season when they will probably have
the most leisure.

Apply will much oblige

Dear Sir: Your reply to my inquiry
came to-day. I notice that your Evening
Exhibition is likely to come by the time we
reach Washington. Could not an Exception
be made in your rules in favor of the
Press party from this State so that an
Evening Exhibition could be arranged
for them? We shall reach Washington
on Saturday (probably) just as the Gallery
is closed. The next day being Sunday
we can of course not be admitted. On
Monday we shall be in Mount Vernon
early at the, and time the Gallery will
be open, as it will just be closed
when we return. And to visit the

gallery Tuesday will necessitate our giving up something else like a visit to the Treasury or other departments which all close at 4 P.M. to-day.

It may be possible for us to arrange our trip to that Sunday should not find us in Washington but even then it will be an advantage to us to get an evening Exhibition.

On what terms could one be arranged?

Very truly Yours
